

20 JANUARY 2014

(c) Selling Solutions

Internet Marketing Package

40%+

confirm these top three keys to marketing success

Key findings from Gartner U.S. Digital Marketing Spending Survey, 2013.

- Corporate Website
- Social Marketing
- Digital Advertising

More and more, I am hearing from Owner/Managers in the Irish SME sector:

“What is wrong with picking up the phone?

What is wrong with developing a relationship with your customer or supplier, like we did 20 years ago?

What is wrong with helping the customer get to

- KNOW US,
- LIKE US and
- TRUST US?

You always told us we had to MEET THE PEOPLE!”

Correct and right! The internet is just another way of getting in front of customers. It is like your shop window in the good old days!

- How are you going to do it up?
- How have you always attracted customers?
- How did you sell?
- What worked for you when you were successful?
- What way do you want to get in front with your customer, phone, in person, online?

With so many years Sales experience and being one of Ireland’s leading exponents of Social Selling, we will get you online and show you how to keep getting found by the customers you want to find you!!!

Call us now.
